2 Hazards Identification

Emergency Tel. No.

2.1 Classification of the substance or mixture *CLP Classification-Regulation (EC) No. 1272/2008[EU-GHS/CLP]*

Not a hazardous substance or mixture according to Regulation (EC) No.1272/2008.

2.2 Label elements

Labeling according to Regulation (EC) No.1272/2008

The product does not need to be labelled in accordance with EC directives or respective national laws.

2.3 Other Hazards

None

3 Composition/Information On Ingredients

3.2 Mixture

Component		Classification	Concentration	
Ferric ammonium citrate				
CAS No. :	1185-57-5	As Per EC Regulation 1272/2008	>=1.0 - <=10.0%	
EC No. :	214-686-6	Skin Irrit. 2; Eye Irrit. 2A; STOT SE 3		
		H315; H319; H335

6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures Wear respiratory protection. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas.

Page **2** of **8**

6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

6.3 Methods and materials for containment and cleaning up Soak up with inert adsorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.

6.4 Reference to other sections For disposal see Section 13.

7 Handling and Storage

7.1 Precautions for safe handling

Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. Normal measures for preventive fire protection.

7.2 Conditions for safe storage, including any incompatibilities Store in cool place. Keen container tightly closed in a dry and well-ye

Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage.

Recommended Storage Temperature : On receipt store between 10-30°C

7.3 Specific end uses

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

8 Exposure Controls/Personal Protection

8.1 Control parameters

Components with workplace control parameters

8.2 Exposure controls

Appropriate engineering controls

Avoid contact with skin, eyes and clothing. Wash hands before breaks and immediately after handling the products.

Personal protective equipment

Hygiene measure

Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after working with the product.

Eye/face protection

Tightly fitting saftey goggles; Faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

Skin protection

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 2016/425/EEC and the standard EN ISO 374-1/2016 derived from it.

Body protection

Complete suit protecting against chemicals. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. *Respiratory protection*

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air

respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). *Environment exposure controls* Do not empty into drains.

9 Physical and chemical properties

9.1 Information on basic physical and chemical properties

Light yellow to light brown homogenous free
flowing powder
No data available
No data available
7.40 - 7.80
No data available

9.2 Other safety information

No data available

10 Stability and Reactivity

- 10.1 Reactivity No data available
 10.2 Chemical stability No data available
 10.3 Possibility of hazardous reactions No data available
 10.4 Conditions to avoid No data available
- **10.5** Incompatible materials No data available
- **10.6 Hazardous decomposition products** Refer Section 5.2

11 Toxicological Information

11.1 Information on toxicological effects

Acute toxicity No data available Skin corrosion/irritation No data available Serious eye damage/eye irritation No data available Respiratory or skin sensitisation No data available Germ cell mutagenicity No data available Carcinogenicity IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. Reproductive toxicity No data available Specific target organ toxicity- single exposure No data available

Aspiration hazard No data available Potential Health Effects Inhalation REFER SECTION 2 Skin REFER SECTION 2 Eyes REFER SECTION 2 Ingestion REFER SECTION 2 Additional Information RTECS : No data available

11.2 Components

Ferric ammonium citrateAcute Oral ToxicityRatLD50: >2000 mg/kgAcute Potential Health EffectsSkinContact may cause irritation or rash, particularly with moist skin.EyesMay cause eye irritation with redness, tearing, and abrasion.InhalationInhalation of high concentrations of dust may cause nasal, throat or lung irritation. Symptoms mayinclude coughing and wheezing.IngestionIngestion can produce gastrointestinal tract irritation with hyper motility, diarrhea.

Chronic Potential Health Effects Eyes Prolonged eye contact may cause a brownish discoloration of the eyes. Skin Prolonged skin contact may cause skin irritation.

Additional information:

RTECS: GE7540000

Sodium carbonate Acute Oral Toxicity Rat LD50: 4090 mg/kg Acute inhalation toxicity Rat LC50: 5750 mg/l; 2 h

Additional information

RTECS: VZ4050000

12 Ecological Information

12.1 Toxicity

No data available **Ammonium Ferric Citrate** *Eco toxicity* No data available.

Components:

Sodium carbonate Toxicity to fish Lepomis macrochirus (bluegill)LC50: 300 mg/l; 96 h Toxicity to daphnia Daphnia magna (water flea)EC50: 265 mg/l; 48 h Daphnia magna (water flea)EC50: 265 mg/l; 72 h

12.2 Persistence and degradability

No data available

12.3 Bioaccumulative potential No data available

12.4 Mobility in soil

No data available

12.5 PBT and vPvB assessment

This substance or mixture contains no components considered to be persistent, bioaccumulating nor toxic (PBT) at levels of 0.1% or higher.

12.6 Other adverse effects No data available

- 13 Disposal Considerations
- 13.1 Waste treatments methods

Page **6** of **8**

Product

Offer surplus and non- recyclable solutions to a licenced company. Contact a licenced professional waste disposal service to dispose off this material.

13.2 Contaminated packaging

Dispose of as unused product.
